ABOUT GEOBYKE

Jinhua Geobyke Co., Ltd is a professional Manufacturer of electric bikes and electric tricycles in China. We are located in Zhejiang Province, near to Ningbo and Shanghai Port. With factory area of 2000 square meters and one assembly line, Geobyke has production capacity of 70000 PCS a year. We enjoy our excellent reputation due to our reliable quality, fine workmanship and world trendy design. Now we have founded reliable worldwide networks and have made a great success together with all partners in the world.

QUALITY CONTROL

Geobyke has strictly control on the whole production process. We have a very professional team which always monitor and make sure we are producing high quality of products. Based on high standards, our products have passed E N 1 5 1 9 4 and C E certification.

OUR HISTORY

Having produced e-bike for more than 8 years, Geobyke gained an in-depth understanding of electric bikes. We build our own R&D team, designing our unique and exclusive range of e-bikes, producing high-quality e-bikes under our customers' brand. Since 2020 we build our first oversea warehouse in UK, starting to sell e-bikes with our own brand GEOBYKE. And we are keeping developing more dealers in worldwide market. Our knowledge, experience and passion is matched only by our commitment to quality and excellent service.
